B.—The Net Expenditure in England has been obtained by deducting the receipts from the following heads:—Interest on Debt, Charges of Collection, other Civil Expenditure, and Military Charges.

* The amounts in red ink in the column of stores have been distributed in the other columns of expenditure of the Military and other Departments for which the stores were bought, and the red ink figures have accordingly not been reckoned a second time in the grand total.

NET EXPENDITURE] Account No. 7 —*continued.*

N. B.—From 1792-93 to 1813-14 charges for the collection of Land Revenue were not distinguished, and the Net Revenue in those years cannot therefore be separately shown.

For the separate detail of Land Revenue, Excise, Sayer and Moturpha, respectively, of each Presidency and Province, see Accounts Nos. 16, 24, & 31.

Salt Revenue was not shown distinctly in the accounts of the Madras Presidency before 1813-14, nor in those of the Bombay Presidency before 1823-24; the total Salt Revenue shown for India in Accounts Nos. 3 and 5, down to 1812-13, represents therefore the Salt Revenue of the Bengal Presidency.

for this period, see Accounts Nos. 18 and 25, and for rates see Account No. 59.

* The figures in this column, from 1858-59 downwards, differ from those in Account No. 37 of Part III last published owing to the inclusion therein of the quantity of Salt supplied to Native Chiefs or States, which was formerly excluded. The addition herein in the Bombay Salt has caused a corresponding increase in the totals.

BENGAL (LOWER PROVINCES).

Tax levied on salt under the Mahomedan Government.

Under the Mahomedan rule a tax was levied on the salt consumed by the people of Bengal by means of imposts on the privilege of manufacture, and duties on the transportation of salt from the places of manufacture to the interior of the country.

Commencement of the East India Company's monopoly.

A monopoly for the manufacture and sale of salt was first established in Bengal by Lord Clive in 1765, the chief object being to provide fitting emoluments from the profits for the principal persons concerned in the Government, and thus to prevent their mixing in the intrigues and questionable transactions by which Civil Servants and others in those days were in the habit of amassing enormous fortunes.

Half the monopoly profits were to be distributed among the officers of Government, and the other half it was proposed to credit to the Company.

In his Minute of the 3rd September 1766, Lord Clive assumed that this share would yield, "according to the present state of the salt trade, from 12 to 13 lakhs of rupees annually."

The rate fixed for deliveries was Rs. 2 per maund.

The existence of this monopoly was of but short duration, as the Court of Directors wholly disapproved of the arrangements.

At the same time, however, the Court stated that they did not object to the levying of the ancient duties on salt, which had always constituted part of the revenues of Bengal.

In the year 1772 the manufacture and wholesale trade of salt was farmed out by Government to private individuals, but this complicated farming system soon failed, and was never very productive.

Establishment of the Company's salt agencies.

In 1780 Mr. Hastings introduced a system for the manufacture and sale of salt under the agency of the Company's Civil Servants. In accordance with this system, the Molunghees received advances from the agents at the beginning of the season, on the stipulation that they delivered their salt to the Government when made at a certain price, and the agents afterwards stored the salt and sold it to wholesale dealers at a price fixed from year to year by the Government.

The difference between the price agreed upon with the Molunghees and the price at which it was delivered from store to the merchants was thus in effect the duty levied upon the salt.

In 1788 sales of salt by public auction, instead of at fixed rates to the dealers, was introduced by Lord Cornwallis. The revenue immediately rose, but the system was eventually abolished by the Court of Directors in 1837, as it was found to lead to the establishment of sub-monopolies, injurious to the interests of both the people and the Government.

Introduction of a fixed duty system.

In their despatch of the 4th January 1837, the Court of Directors ordered that the price to be thenceforward paid by the purchasers of salt should be determined by the cost price of manufacture, added to a fixed rate of duty.

The rates of duty since fixed from time to time have varied from a maximum of Rs. 3-4 to a minimum of Rs. 2-8 per maund; but the system for the manufacture and supply of salt, as introduced by Mr. Hastings in 1780, continued in force, with but few modifications, until the year 1862, when the several salt agencies were gradually abolished, leaving the supply of salt, either by importation or excise manufacture, to private enterprise. The several salt agencies were situated in the province of Orissa and in the districts of Chittagong, 24-Pergunnahs, Jessore, and Midnapore.

Exception in the rule as regards the fixed duty.

The full rate of duty on salt was not, however, levied uniformly throughout Bengal until recently. From the year 1810, a system of retail sales, at reduced prices from shops established on the part of Government, was introduced in districts and localities where salt was manufactured, or was capable of being easily produced; the object being, as stated at the time, to leave the people residing in such tracts without excuse for violating the law under the temptation of a high rate of duty, and to obtain some revenue in a part of the country where, from the great facilities for smuggling, it had been found impracticable to realize full prices.

From enquiries held during the years 1860 and 1861, the Government concluded that the loss of revenue entailed by the remission of a large proportion of the duty on the salt consumed within the saliferous tracts was, under existing circumstances, far larger than would arise were the full duty levied.

The system of retail sales at reduced prices was therefore abolished from the year 1862.

Recent enquiries on the results of this measure have substantiated the correctness of the conclusions at which the Government arrived.

BENGAL (LOWER PROVINCES) —*continued.*

Preventive arrangements for the protection of the revenue.

From the commencement of the salt monopoly, a preventive establishment was employed for the protection of the revenue. This establishment was, for the most part, separate from, and independent of, the agency constituted for the manufacture and supply of salt, and was employed in Northern Behar to prevent the influx of lighter taxed salt from the westward, and also within certain defined limits which included the saliferous tracts on the sea-board of Lower Bengal.

By Regulation X of 1819, the general control of this preventive department was vested in the Board of Customs, Salt and Opium established in that year.

On the passing of Act XIV of 1843, imposing an additional duty of one rupee per maund on salt passing from the North-Western Provinces to the eastward of Allahabad, the establishment in Behar was withdrawn. The 1 rupee was in June 1847 reduced to 12 annas, and in April 1849 to 8 annas. In March 1861 the additional duty was abolished.

In Lower Bengal the limits within which the preventive force were entertained have been narrowed from time to time, so as to concentrate their operations on the salt-producing tracts only.

A further check.

As a further check against illicit manufacture within these limits, all salt under transport was required to be conveyed by certain specified routes and pass stations, and to be covered by protective documents, under penalty of confiscation.

Merchants and dealers were also required to record all sales and losses from their stocks on the reverse of their protective documents.

The law and rules on this subject have been modified from time to time. Those now in force are contained in Act VII of 1864 and the Government Notification issued under that Act.

In 1863 the special preventive establishment was abolished, and all duties previously discharged by them were delegated to the regular Police Force. In addition to the sea-board and salt-producing tracts, the Police have also to guard the frontiers of Ganjam and Arracan to prevent the ingress of the lighter taxed salt from those districts.

Commencement and progress of excise manufacture.

In 1835-36 the excise manufacture of salt was first commenced by private individuals, but the continuance of the system was subsequently negatived by the Court of Directors in 1840.

In 1847 the manufacture of salt under certain excise rules was again permitted, but for many years the quantity produced was very small.

During the past few years excise manufacture has been carried on to a considerable extent in Orissa, the quantities made being more than sufficient for the supply of that province; and since 1867-68 it has been re-commenced, though on a small scale, in the district of the 24-Pergunnahs.

Importations of salt by sea.

Foreign salt was first imported into Bengal in the year 1818-19. No large importations, however, occurred until the year 1835-36.

At first, and until the fixed duty system was adopted, customs dues were levied at such rates as were considered necessary to maintain the average prices of the Government sales.

As the old stocks of salt manufactured at the Government agencies are almost exhausted, and the quantity of salt manufactured in the 24-Pergunnahs under the excise rules is very small, the consumption in the whole of Bengal, with the exception of the Orissa Province, may be said to be now supplied by imported salt. These importations have of course greatly increased since the cessation of the Government manufacture.

The following are the descriptions of salt now commonly imported, the bulk of the importations being from Liverpool :—

Manufactured by Solar Evaporation.		Manufactured by Boiling.
French Kurkutch.	Bombay Kurkutch.	Liverpool Pungah.
Ceylon ditto.	Kurrachee ditto.	Rock Salt.
Juddah ditto.	Madras ditto.	Muscat Rock.
Muscat ditto.	Covelong ditto.	Bombay ditto.

The duty levied on salt is now precisely the same as it was in 1839, though intermediately the rate of duty has been frequently changed. The duties have been as follow :—From 1837 to 1844 at the rate of Rs. 3-4-0 per maund. In October 1844 this rate was reduced to Rs. 3, in April 1847 to Rs. 2-12-0, and in April 1849 to Rs. 2-8-0. In December 1859 the duty was again raised to Rs. 3, and in March 1861 to the original figure of Rs. 3-4-0.

Conventions with the French Government in the matter of salt.

In 1815 a convention was made with the French Government, under the terms of which the East India Company agreed to supply sufficient salt for the consumption of the French Settlement of Chandernagore at prime cost from the Orissa and Midnapore agencies.

The quantities of salt thus supplied free of duty varied from maunds 4,000 to 12,000 per annum.

This arrangement held good until the year 1839, when the Company entered into an engagement to pay annually a sum of Rs. 20,000 to the French Government on their agreeing to buy their salt in the open market at the same price paid for it by other inhabitants of Bengal; these payments are still continued.

* These figures represent the quantities passed out by the East Indian Railway only.

MADRAS PRESIDENCY.

According to the prevailing system, which was established in 1805, salt is made in the coast districts by private manufacturers, who receive advances from the Government, and who are restrained from selling the produce to any but the Government. The salt is re-sold by Government at the price paid to the manufacturers (reduced to an average rate for all the districts) *plus* the duty. The salt revenue in the following tables is therefore the gross receipt, inclusive of the cost of manufacture. In the earlier years the average of this cost was assumed at 2 annas a maund, but latterly it has been reckoned at 3 annas a maund.

2. In the eastern maritime districts, these arrangements prevail without any modification, but in Malabar and South Canara, the salt manufactured locally is insufficient for the consumption of the districts; the deficiency is supplied by importations from the Bombay Presidency. Formerly these importations were made by the Government, and then, or down to 1860-61 inclusive, the imported salt was sold at a price equal to the Madras duty (*i. e.*, the general gross selling price, less 2 annas a maund) *plus* the cost of the salt. From 1861-62, however, the importations have been made by merchants who necessarily pay bare duty to the Government.

3. Certain quantities of salt are annually supplied to the French Settlements in the Madras Presidency under an old convention with the French Government at the cost price of that day. These are omitted in the following statistics excepting in the first return. A further quantity, generally less than one thousand maunds annually, is supplied at prime cost from the Canara District for the Ameendevi Island. This is included in the present returns.

4. When salt is purchased by the heap of 1,200 maunds without measurement, a discount of 5 per cent. on the general selling price is allowed. In the returns of the Madras Presidency, the gross 1,200 maunds of each heap are shown as sold at the general price reduced by 5 per cent. measurement; however, as the deduction of 5 per cent. is allowed on account of wastage in the heap, the quantities shown in the Madras returns at the reduced price have been diminished by 5 per cent. in the following tables. In a few instances a larger discount has been allowed to wholesale purchasers, in order to clear out stores in remote parts of a district, or for other special reasons, such as the clearances of old salt in the Kistna District, which had been injured in the cyclone of 1864. In those instances the gross quantities in the Madras returns have been adopted without abatement.

5. The whole of Mysore and the greater part of the Nizam's territory, and of the southern and eastern parts of the Central Provinces are supplied with Madras salt, but in the returns from Madras these supplies are not distinguished from the sales for consumption within the Madras Presidency.

6. North Canara was detached from the Madras Presidency and annexed to the Bombay Presidency in 1862-63. The sales in that district are distinguished from the remaining sales of the Presidency in the following tables.

7. The *general* selling price of salt in the Madras Presidency has been as follows, *viz.*:—

9⅓ annas a maund of 82⅔lbs. from 1805 to November 1809.
14 „ from November 1809 to a date in 1820.
9⅓ „ from 1820 to June 1828.
14 „ from June 1828 to 31st March 1844.
1 Rupee 8 annas a maund, reduced in the same year to 1 Rupee a maund, from April 1844 to July 1859.
1 Rupee 2 annas „ from August 1859 to 2nd April 1861.
1 Rupee 6 annas „ from 3rd April to 23rd June 1861.
1 Rupee 8 annas „ from 24th June 1861 to a date in 1865-66.
1 Rupee 11 annas „ from a date in 1865-66. The rate continued until 1869, when by Act XXXIV it was raised to Rs. 2 a maund.

These rates are inclusive, as observed in paragraph 1, of a cost price of 2 annas, or latterly of 3 annas a maund, and are abated by 5 per cent. for purchase, without measurement, of a heap of 1,200 maunds.

* This total differs from the "Total of Sales" in the previous account only by the quantity of salt shown in the column for "Wastage."
† Includes maunds 129 on account of miscellaneous sales. | ‡ Inclusive of the wastage to be written off (Indian maunds 3,54,931).

BOMBAY PRESIDENCY, EXCLUSIVE OF SIND.

The salt produced in the Bombay Presidency, and in the works belonging to His Excellency the Nawab of Cambay, is partially exported beyond the Presidency by land to Malwa, the Central Provinces, and the Nizam's territories, and by sea to British and Foreign Malabar in the Madras Presidency, and to Calcutta and the Straits Settlements. The exports by land pay the full excise duty; those by sea are free of duty, but a nominal charge, to cover cost of establishments at the salt pans, is levied at three pies, or a quarter of an anna a maund on exports to British Malabar, and to Native Foreign ports in the Madras Presidency.* The exports to Calcutta paid full excise duty down to the year 1864, since then they have been free of duty, being subject, like the imports of Bombay salt into the Madras Presidency, to the full customs duty (which is the same as the local excise duty) at the port of import.

Mr. Plowden remarks in his report on salt in British India, that "it was not until the 15th December 1837 that salt was erected, by Act No. XXVII of that year, into a source of considerable revenue in the Presidency of Bombay; prior to that date it was one of many miscellaneous items as under the Native Government."

Under Act XXVII of 1837, the manufacture of salt in the Bombay Presidency was placed under restriction, and the produce, in common with the importations of salt by sea and land, was subjected to a duty of eight annas a maund. The object of the duty was to compensate partially the loss to the general revenue from the abolition of inland transit duties. In 1844, to set off a further loss of revenue from the abolition of the *moturpha*, or tax on trades and professions, the duty was raised from 1st September to one rupee a maund, but immediately after it was reduced in the same month, with effect from the same date, to twelve annas a maund, at which rate it continued until August 1859, when it was raised to one rupee a maund, and was again raised on 20th January 1865 to one rupee and eight annas a maund. By Act XXIV of 1869 the duty was raised to one rupee thirteen annas a maund.

The system in the Bombay Presidency is that of licensing the manufacture at places approved of by the officers of revenue, watching production and store, and not allowing removal from the manufacturers' store, except upon payment of the prescribed duty. Certain Native States and Chiefs, however, are allowed a certain annual supply of salt free, or at reduced rates of duty, from the Ahmedabad Collectorate in the Northern Division.

In the same division, a reduced rate of revenue is obtained from the produce of the salt-works of the Nawab of Cambay, under an arrangement which is thus explained in Mr. Plowden's report:—"The city and port of Cambay, with the adjacent district, is foreign territory, in the revenues of which the British Government is interested, as having succeeded to the Mahrattah *chowth*, or tribute. His Excellency the Nawab of Cambay, on the introduction of the salt excise, refused to make any alteration in the rates levied at his salt pans. The Bombay Government thereupon placed a line of frontier chowkeys, which prevented the ingress of country salt into the British territories; but a considerable quantity continued to be carried into the territories of the Guicowar, and after some negotiation, the Nawab agreed to levy the Bombay rate of excise if he might appropriate one-half. This was acceded to as on the whole an advantageous compromise. Under this arrangement, the Bombay Government is entitled" (full duty, at the date of Mr. Plowden's report having been twelve annas a maund) "to an excise duty of six annas per Indian maund on all the salt produced at works in Cambay; but the Nawab established a claim to an additional *huck* or due, amounting to three-fourths of a pie per maund, by which the share of the Bombay Government, in the excise duty of twelve annas, was reduced from six annas to five annas eleven and a quarter pie the rate now received." The full duty per Indian maund and the shares thereof are now as follow:—

	Rs.	A.	P.
Share of British Government	0	14	$5\frac{1}{8}$
„ of Nawab of Cambay	0	14	$6\frac{7}{8}$
TOTAL ...	1	13	0

Thus the Nawab's *huck* has risen from $\frac{3}{4}$ or $\frac{6}{8}$ pie to $\frac{7}{8}$ pie a maund.

* Under the conditions of 1865, the supply of salt from Bombay to Cochin and Travancore was put on the same footing as the supply to South Canara and Malabar, that is only 3 pies per maund is charged at Bombay.

Account No. 46.

RATE of DUTY on SALT, PROCEEDS REALISED, CHARGES of COLLECTION, NET SALT REVENUE and QUANTITY of SALT which paid full DUTY in each year from 1842-43 *to* 1871-72, *distinguishing the QUANTITY of SALT of LOCAL PRODUCE delivered for HOME and INLAND CONSUMPTION from that IMPORTED by LAND or SEA, and showing also the QUANTITY EXPORTED by SEA to places beyond the BOMBAY PRESIDENCY.*

* This includes £19,936 on account of miscellaneous items, such as proprietary right, sale proceeds of confiscated salt, &c., &c.

Down to 1852-53 the figures are for the salt year (from 1st August to 31st July), and thereafter they are for the official year.

Down to 1861-62 the figures are exclusive of North Canara, which was transferred from the Madras to the Bombay Presidency from 1862-63, exclusive of Sind. For Sind, see page 78.

The supplies of salt to Native States or Chiefs, free or at reduced rates, are omitted from this table, but are shown in Account No. 48.

Account No. 47.

INLAND CUSTOMS LINE.

The Inland Customs line which was formed in 1843-44, and has been extended at various times, now reaches from Torbeila on the Attock, in the Punjab, to the Mahanuddy in the Sumbhulpore District of the Central Provinces. It is 2,472 miles in length, and is manned by 10,496 officers and men. In the Central Provinces, in addition to protecting the Imperial Revenue, the line leaving the Central Provinces near Mulkapore skirts the western side of the Berars and enters the Central Provinces again at Chanda, thus likewise protecting the salt revenue of the Hydrabad Assigned Districts. Prior to January 1870, this line existed as a loop-line, but it has now been incorporated with the Central Provinces line, a considerable portion of which has in consequence been abolished and a corresponding saving in expenditure effected.

Irrespective of these lines, local salt works were opened in the rear of the line in Oude and in North-Western Provinces in the Jounpore District; and the Inland Customs Department in February 1870 assumed charge of a portion of the Sambhar Lake belonging conjointly to the States of Jaipore and Jodhpore. A force designated the Internal Branch also exists in Oude and the North-Western Provinces for the fostering and protection of the saltpetre trade, for the levy of duty on the salt educed in the process of refining saltpetre, for the supervision and control of the manufacture of saline substances, such as Khari-noon, &c., which, if unsupervised, are capable of causing vast injury to the Imperial Revenue, and for the suppression of illicit manufacture of salt within British territory.

The whole Inland Customs Department in the Punjab, North-Western Provinces, Oude, the Central Provinces, Berar, and Rajpootana, is administered by the Commissioner of Inland Customs, who is under the Government of India, but is immediately responsible to the respective Local Governments and Administrations within whose jurisdiction the customs organization is established.

The duties levied on the line are on imports of salt and exports of sugar. On salt there are at present two rates of duty, *viz.*, a full or three rupees rate on all salts except those entering the Central Provinces from Bombay and Madras, on which at the places of manufacture a duty of Re. 1-13 is levied. Hence these salts pay to the Inland Customs Department a duty of only Re. 1-3 per maund, see Government of India, Agriculture, Revenue and Commerce, No. 79, dated 16th October 1871.

The general rates of duty on Rajpootana and Bhurtpore salts have been as follows :—

Re. 1-8 and Rs. 2 from 1843-44 to 1845-46,
Rs. 2 from 1846-47 to a date in December 1859,
Rs. 2-8 from December 1859 to a date in March 1861,
Rs. 3 from March 1861 to the present time,

with the following exceptions, *viz.*, in the Sirsa division of the Punjab section, the duty was 8 annas a maund for a part of 1843-44, when it was raised to Re. 1 per maund, at which figure it remains till a date in 1846-47, when the duty was equalized with that generally levied. In the Saugor division of the Central Provinces section, a lesser rate of Re. 1-8 a maund prevailed from the formation of the division in 1855-56 till the introduction of the general rate in 1859-60. In the Hoshungabad section, also formed in 1855-56, Re. 1 a maund was levied until a date in 1859-60, and thereafter Re. 1-8 until the general rate was introduced in 1860-61.

The duty on Madras and Bombay salts entering the Central Provinces was levied from the outset, until the late increase of the duties in Madras and Bombay, at Re. 1-8 per maund.

The general rates of sugar duty have been as follows:—

	Per Maund.	
	On Refined Sugar.	*On Unrefined Sugar.*
From 1843-44 to 1859-60	... 8 annas	3 annas.
For 1860-61	... 8 annas and 1 Re.	3 annas and 6 annas.
From 1861-62 to 1868-69	... 1 Rupee	6 annas.

The salt duties levied in the Punjab are included in the account of the receipts of the Inland Customs Department. The customs line in the Punjab for the levy of *salt duty* runs through the Sirsa, Hansi, Rohtuck, and Goorgaon districts, beginning at Fazilka on the Sutlej, and ending at Hodul on the border of the Muttra district in the N. W. Provinces. There are further two preventive lines in the Punjab which do not collect duty on salt, are *purely* preventive—one, the Sutlej Preventive line, barring the importation into the Punjab of Bheekaneer and Sind salt, but levying a tax on sugar; the other, the Indus Preventive line, stopping the influx of untaxed or Trans-Indus salt. Besides these there are establishments at the Kohat Salt Mines for the levy of a duty of 4, 3 or 2 annas a maund on salt there excavated, and in the Sind, Saugor Doab and the Kalabagh Mines for the levy of a duty of Rs. 3 a maund on salt excavated in those mines. This last-mentioned salt is consumed in the Punjab, and more or less throughout the N. W. Provinces and Oude. The duty on it was Rs. 2 per maund from 1849-50 to 20th April 1860, and Rs. 2-2 a maund from 21st April 1860 to 19th September 1861; since then the duty has stood at its present rate of Rs. 3 a maund. Since the 4th July 1870 one anna per maund has been charged as the cost price of the salt in addition to the duty.

Since the 1st of April 1870 the whole of the Salt and Customs Departments in the Punjab have been, without exception, placed under the charge of the Commissioner of Inland Customs.

OPIUM.

EXPLANATORY MEMORANDUM.

BENGAL OPIUM.

In British India the manufacture of opium for export to the Straits Settlements and China is restricted to two Agencies in Behar and Benares in the Bengal Presidency. These are under the administration of the Government of Bengal, though the so-called Benares Agency includes sub-divisions which are partly situated in Oude, and is established in territory under the Government of the North-Western Provinces.

The cultivation of the poppy and the manufacture of opium in these two Agencies are regulated by Act XIII of 1857, under the general control of the local Government and the Board of Revenue, and the immediate supervision of the Opium Agents in charge of the Agencies.

The Collectors of Land Revenue in the districts within the range of the Agencies are Deputy Agents for the enforcement of some of the provisions of Act XIII of 1857, but they do not otherwise take part in the details of supervision, which are conducted by Sub-Deputy Opium Agents acting under the orders of the Opium Agents.

The extent of cultivation and the quantity of opium to be annually brought forward for sale, are regulated by the Government of India in communication with the local Government; while the limits of cultivation within each sub-division, and the persons by whom the poppy may be cultivated, are arranged annually by the Opium Department. The cultivators, though free to decline the cultivation, are restrained from selling their produce to any but the Opium Department.

The produce is purchased, in the form of crude opium at a price per seer of opium, of a certain standard consistence which is fixed at the time of the annual engagements with the ryots or cultivators.

The ryots, or their accredited agents, the lumberdars, enter, at the end of July or early in August, into engagements to cultivate, and thereafter receive five advances as follow, the first three at a rate not exceeding Rs. 4 each advance per beegah, *viz.*:—

1st.—In September.

2nd.—At the end of December or beginning of January;—after the crop is above ground, and when the prospects are favorable.

3rd.—At the latter end of March;—after the chief part of the crop has been gathered, and the *taidad* or out-turn which had been arranged for, has been completed.

4th.—At the time of weighment;—the rate of advance being regulated by the quality of the drug delivered.

5th.—On obtaining from the Agent the godown receipts.

By the end of July the manufacture is finished, but the airing and drying are continued till October, by which time the balls are ready for packing; forty balls are allotted to each chest of provision opium.

The manufactured opium is classed as provision opium for export to China, and abkaree or excise opium for consumption in the country. The provision opium is brought down to Calcutta, where it is sold by auction to the highest bidder. By a convention with the French Government, dated 7th March 1815, the authorities at Chandernagore are entitled to demand a quantity not exceeding in the aggregate 300 chests in each year, the price for the same being determined by the average rate at which opium is sold at every periodical sale during the year, and the requisition for such opium being "addressed to the Governor General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette.*"

The year's provision is not sold at once. Originally there were five sales in a year, then nine, but since 1848 they have been monthly. Of late years, to check speculation, the quantity to be sold in any calendar year has, if the out-turn be sufficient, been notified in the previous year, and as a further means of steadying prices, endeavours are being made to accumulate a reserve of at least ten thousand chests of opium to supplement a deficiency of out-turn in bad seasons.

The abkaree or excise opium manufactured in the two Agencies is supplied to the Governments of Bengal and the North-Western Provinces, and the Administration of British Burmah, who cause its sale within the territories under their jurisdiction, at prices which are fixed at their discretion, but never so low as to tempt the exportation of abkaree opium to China in preference to provision opium.

The consistence of the manufactured opium differs in the two Agencies. The moisture in 100 grains of crude opium being thoroughly evaporated, the residue is weighed, each grain after dryage being taken at 1°. If the cultivator delivers his drug of standard consistence, he receives for it the regulated price, otherwise, a *pro ratâ* increase or deduction is made according as the drug is above or below standard.

The gross and net weight of a chest of opium, and the consistence of provision and abkaree opium are as follow:—

	Consistence.	Gross weight of chest.		Net weight or quantity of opium in each chest.			One chest of excise opium equal to

MALWA OPIUM.

A large revenue is derived from the transit of the opium of Malwa through the British territories to Bombay for exportation to China. Previous to the year 1831, the British Government reserved to itself a monopoly* of the article, which was purchased by the British Resident at Indore, and sold by auction, either at Bombay or at Calcutta. But in that year it was deemed advisable, chiefly on account of the large quantity of opium smuggled to the Portuguese Settlements of Demaun, &c., on the Coast, to relinquish the monopoly, to open the trade to the operations of private enterprise, and to substitute, as a source of revenue, in place

* By separate treaties with the Native Princes of Central India, which were subsequently cancelled.

MALWA OPIUM—*continued.*

of the abandoned system, the grant, at a specified rate, of passes to cover the transit of opium through the Company's territories to Bombay. In determining the amount of transit duty, it was proposed to be guided by a comparison of the cost of transit direct to Bombay with that of the transmission of the drug to the Coast by the cheapest of the more circuitous routes through the territories of Native States; and on the basis of such a comparison, it was fixed at Rs. 175 per chest of 140lbs. each. In 1835, the results of the preceding official year having been unfavorable, and the shipments of opium from Bombay having largely declined, while those from Demaun had greatly increased, the rate was reduced to Rs. 125 per chest.

The subjugation of Sind facilitated the levy of a higher rate. Until that conquest, a large portion of the opium of Malwa had been conveyed through Sind to Kurrachee, and thence onwards to the Portuguese ports of Diu and Demaun. That route being now closed, it was reasonably expected that an advance might be made in the charge for passes, without risk of loss to the revenue from a diminished demand for them. The rate was accordingly increased in October 1843 from Rs. 125 to Rs. 200 per chest. Upon the principle that the duty should be fixed at the highest amount which could be levied without forcing the trade into other channels, a further increase was made in 1845, when it was determined that the charge should be Rs. 300 per chest. Under the like views it was on 1st June 1847 raised to Rs. 400 per chest, and subsequently as follows, *viz.*:—

	Rs.
1st July 1859	500
1st September 1860	600
1st October 1861	700
1st „ 1862	600, which is the present rate.

Poppy seed is sown in Malwa in November; the plants are in flower in the beginning of February, and by the end of March the whole of the opium is collected by the cultivators and ready for sale. The village bankers, who get possession of the raw opium, retain it till the end of April, and during May and June it is bought by the large dealers who make it up into cakes of 12 ounces each, and expose it in store-houses to dry for the next two months, after which it is ready for the scales.

Generally, the opium is ready or export in September; but as considerable dryage takes place in its transport to Bombay while new, it is usually kept till October, unless an expected increase of duty, or pecuniary difficulties of the dealers compel the owners to bring the drug earlier to the scales. Since September 1866, a new route from Indore has been generally adopted for the transit of chests to Bombay, *vid* Simlore and Burwaree, to the railway station at Khundwa. Consignments can now reach Bombay in eight days, whereas the old route, *vid* Maunpore, Scindwa, and Manwar, occupied 20 days. Passports are also granted at Ahmedabad, where the scales are superintended by an officer of the Opium Department, Bombay.

A chest of Malwa opium contains 140lbs. net weight, to which an allowance of 1½lbs. is added for leaf and dust, making a total of 141½lbs.

The rules in force at Indore (and the same are applicable at Ahmedabad) for the weighment of opium and the grant of passports are as follow:—

The opium, ready packed in half chests (for convenience of carriage) is brought to the Government godown by the merchants or brokers, who tender for the duty hoondies bearing interest at 5 per cent. per annum, and payable at sight to the General Treasury at the Bank of Bombay. These, on being approved, registered, and numbered, are forwarded with the register to the Deputy Auditor and Accountant General, Bombay.

The hoondies tendered having been approved of, on the receipt of the hoondies, the half chests are arranged in the godown, and numbered from one, consecutively, in English.

Merchants provide and pay for porters, carpenters, and men for screwing up the chests opened for weighment.

On arrival of the officer who makes the weighment, he selects, at hazard, two half chests out of every ten of each consignment brought to the scales, from which an average is struck; when the average falls short of the allowance by Government, *viz.*, 70lbs. 12ozs. per half chest, the deficiency is allowed to be made good; when it is in excess, the number of pounds in excess is withdrawn. This is called net weighment.

When the net weighment is completed, the boxes are nailed up and repacked, and the gross weighments are proceeded with, that is, the chests, as ready for conveyance, are weighed and marked in English. Full particulars are then entered in the passport granted for each weighment.

To prevent molestation on the road, a vernacular pass is granted to the person appointed by the merchant to accompany the despatch, in which the particulars of the consignment are inserted, and a weekly register of the passports is sent to the Commissioner of Customs, Salt and Opium, Bombay. The passport is only valid for three months from the date of its issue.

The guards necessary for the escort of the consignments are supplied or paid for by the merchants or insurers. Advice of each despatch is forwarded to the Commissioner of Customs, Salt and Opium, Bombay, the day after it occurs.

There are three subordinate offices attached to the Malwa Agency,—Dhar, Rutlam, and Pallee,—the officers in charge of which forward their hoondies to the head office, and in return receive passports bearing the head office registered number.

At Bombay, the process observed with the pass fees levied on opium is as follows:—

The Malwa Agent grants the pass, receives a hoondie in payment of the pass fee, and hands it on to the Accountant General.

The Accountant General sends the hoondie to the General Treasury to be realised, and informs the Commissioner of Customs that he has done so. The Commissioner of Customs at once records it as a debt due by him, and takes care that the amount is recovered.

The Treasury receives the amount of the hoondie, and informs the Commissioner of Customs to that effect.

The Commissioner of Customs, on the arrival of opium at Bombay, receives it, and as a check against smuggling on the way, sees that the chest corresponds with the pass, that the weighment also corresponds, less a certain amount of dryage, and that the pass fees have been duly recovered. If the pass fees have not been paid, he seizes the opium, and recovers the amount of the hoondie and the interest thereon. On the export of the opium to China, the Commissioner of Customs weights it, examines the pass under which it was imported, and checks off therefrom the quantity to be exported.

Account No. 64.

TOTAL RECEIPTS and CHARGES on account of OPIUM in BENGAL and the BOMBAY PRESIDENCY respectively, and the NET REVENUE in each year from 1834-35 *to* 1871-72.

* There not being any record of the actual number of chests exported from Bombay during the years 1830-31 to 1835-36 and in 1845-46, the number of chests for those years has been calculated from the amount of pass duty collected in each year.

† In the years so marked, calculations similar to the above are not practicable, two rates of duty having existed, while the actual number of chests is not upon record.

For all the other years the actual number of chests exported is shown.

‡ Exclusive of 7½ chests exported to other countries.

Account No. 66.

NUMBER of CHESTS of BENGAL OPIUM sold and of MALWA OPIUM passed at INDORE and AHMEDABAD; also proceeds of the GOVERNMENT SALES at CALCUTTA, the ANNUAL AVERAGE PRICE at the SALES, and the RATE of DUTY on MALWA OPIUM in each calendar year from 1846 to 1872.

MONEY.—1 Tael = 10 Mace = 100 Candareens = 1,000 Cash. These monies are formed by weights under the same denomination of Sysee silver, the cash being also represented by cast pieces of coarse metal.

The value of the Tael as being pure, and as weighing 1⅓ oz. Avoirdupois, or 583⅓ grains Troy, would, at 60*d.* per ounce standard, be worth 78¾*d.* sterling; but as it averages only about 98 touch, or 980 fine, a little above 13 dwts. better than standard, its value is 77¾*d.*, to which may be added 1⅛*d.* for the worth of the gold which it contains, and which makes the full value 78⅝*d.* sterling.

Accounts are kept by foreign merchants trading with China in Dollars, each of 100 cents. This mercantile currency is valued at the nominal rate of 720 Taels for 1,000 Dollars, with a variable percentage for the reduction into Sysee silver.

The contents in pure silver of a Spanish Dollar are, say, 370·9 grains; the contents in pure silver of a Dollar's *weight* of *Duty Sysee* are, say, 409·75 grains. The Sysee is therefore at its intrinsic par when it sells at about 10½ per cent. premium, as paid for Spanish Dollars.

100 Spanish Dollars are equal to Government Rs. 226-15-10·08 at the intrinsic par; or Rs. 2·2699 = one Dollar, after deducting 2 per cent. for seignorage.

WEIGHTS.—1 Peeul = 100 Catties = 1,600 Taels.
1 Peeul = 133⅓ lbs. Avoirdupois.
1 Catty = 1⅓ lbs. ditto.
1 Tael = 1⅓ oz. ditto or 583⅓ grains Troy.

NOTE.—The figures in this return show the gross circulation, less the Notes of several Circles in the Bengal Presidency which may have been cashed in other Circles in the same Presidency. From March 1862 to April 1864, there was but one (the Calcutta) Circle in the Bengal Presidency. For the figures for that period, see Account No. 84. Where the Notes in circulation belonging to a Circle in the interior are less than its Silver Coin Reserve, the difference arises from the Notes cashed at the Head Office.

Account No. 91] PAPER CURRENCY.

NOTE.—The figures in this return show the gross circulation, less the Notes of the several Circles in the Bombay Presidency which may have been cashed in other Circles in the same Presidency. From March 1862 to August 1864 there was but one (the Bombay) Circle in the Bombay Presidency.. For the figures for that period, see Account No. 84. The Nagpore Circle was attached to the Bengal Presidency up to July 1867, and its circulation up to that month is included in the totals for the Bengal Presidency, which are given in the Abstract of the Circulation of the Paper Currency in Account No. 84, although for convenience of arrangement the circulation of the Nagpore Circle is shown from September 1864 in this return.

Account No. 92.

VALUE of NOTES in CIRCULATION in the SEVERAL CIRCLES in the MADRAS PRESIDENCY on the last day of each month from January 1865 to March 1873; also amount of the SILVER COIN RESERVE of those CIRCLES.

NOTE.—The figures in this return show the gross circulation, less the Notes of the several Circles in the Madras Presidency which may have been cashed in other Circles in the same Presidency. From March 1862 to December 1864 there was but one (the Madras) Circle in the Madras Presidency. For the figures for that period, see Account No. 84.

MINT AND COINAGE.

MEMORANDUM OF PARTICULARS RELATING TO GOVERNMENT COINS.

SILVER.

On 31st August 1835, the only Rupees of legal tender in British India, within local limits specified in the several Regulations prescribing the coinage, were the Sicca, Furruckabad, and Surat Rupees, and the Bombay and Madras Rupees.

Act XVII of 1835, which took effect on 1st September 1835, directed the coinage of a Company's Rupee weighing 180 grains, and of a standard of eleven-twelfths, or 165 grains of pure silver and one-twelfth or 15 grains of alloy; and declared it equivalent to the Bombay, Madras, Furruckabad, and Surat Rupees, and to fifteen-sixteenths of the Calcutta Sicca Rupee.

Act XIII of 1836 discontinued the Sicca Rupee as legal tender in discharge of any debt, but permitted its receipt by Collectors of land revenue, and at all other public treasuries by weight, and subject to a charge of one per cent. for re-coinage.

By Notifications dated 21st March and 12th May 1838, the Madras, Bombay, and Furruckabad Rupees, "and generally the Rupees issued from any Mint of the British Government that may still be a legal tender in any part of India," were declared to be receivable by the Calcutta Mint for re-coinage, if of full weight, at their intrinsic par, *viz.*, as equal to Company's Rupees, without any charge of seignorage for re-coinage.

All Rupees, and the Half-Rupee introduced by Act XVII of 1835, and continued by Act XIII of 1862, which are legal tender in satisfaction of all engagements, continue (unless clipped, or filed, or defaced, or diminished otherwise than by use) to be legal tender for their full weight, until by gradual wear they have lost more than two per cent. of their original weight; in this last condition the coins when tendered at a Treasury should be paid for at the rate of one Rupee a tolah, and should not be re-issued.

Four-anna and two-anna pieces are legal tender for only fractions of a Rupee. If coined under Act XIII of 1862, they are allowed to pass current so long as they have lost weight only by fair abrasion; but if they have lost weight from any other cause, they are treated as bullion.

SILVER AND COPPER.

The full weight of the coins that were prescribed by Act XVII of 1835 and Act XI of 1844 (authorising half-pice), and that were continued by Act XIII of 1862 (which changed the designation of the Rupee from Company's to Government) is as follows:—

	Pure Silver.	Alloy.	Weight.
LEGAL TENDER IN SATISFACTION OF ALL ENGAGEMENTS—			
Silver Coins—	Grains.	Grains.	Grains.
A Government Rupee	165	15	180
A Half-Rupee	82½	7½	90
LEGAL TENDER FOR FRACTIONS OF A RUPEE ONLY—			
Silver Coins—			
A Quarter Rupee or 4-Anna piece	41¼	3¾	45
An Eighth of a Rupee or 2-Anna piece	20⅝	1⅞	22½

	Grains Troy
Copper Coins—	
A Double Pice, or half-anna	200
A Pice or quarter-anna	100
A Half-pice or one-eighth of an anna...	50
A Pie, being one-third of a Pice, or one-twelfth of an anna	33⅓
90 Rupees' worth of Pice weigh 576,000 grains Troy, or 82lbs Avoirdupois.	

MINT AND COINAGE.

SILVER AND COPPER —*continued.*

1 Rupee = 165 grains of pure silver.
1 Shilling = $80\frac{8}{11}$ grains of pure silver.
1 Rupee = shillings 2·0439 or 2*s.* 0½*d.*
Silver, at 5*s.* 6*d.* per oz. standard = for the 165 grains of pure silver in a Rupee to 2·043*s.*;
or at 5*s.* 2*d.* per oz. standard = 1·92-004*s.* per Rupee.

The Company's pice, or the foregoing copper coinage, was introduced into the Bengal Presidency by Act XVII of 1835, and into the Madras and Bombay Presidencies (with retrospective effect in the latter) by Act XXII of 1844.

The title of "Government Rupee," in supersession of "Company's Rupee," was introduced by Act XIII of 1862, which rescinded further an inoperative clause of Act XVII of 1835 that had empowered the issue of a Double Rupee.

GOLD.

The old standard for gold coinage in Bengal was 99¼ parts of pure gold to three-quarters of a part of alloy. This was altered by Regulation XIV of 1818 to eleven-twelfths of pure gold to one-twelfth of alloy; but the law having become inoperative, the old standard was reverted to for a time, until Act XVII of 1835 re-established the standard of eleven-twelfths fine, but declared that no gold coin should thenceforth be a legal tender of payment in India.

Under the Act XVII of 1835, the under-mentioned gold coins only can be coined at a Government Mint in British India, *viz.*:—

Gold Coins.	Pure Gold.	Alloy.	Total
	Grains.	Grains.	Grains.
A Double Gold Mohur or 30-Rupee piece	330	30	360
A Gold Mohur or 15-Rupee piece	165	15	180
⅔rds of a Gold Mohur or a 10-Rupee piece	110	10	120
⅓rd of a Gold Mohur or a 5-Rupee piece	55	5	60

By a Notification dated 28th October 1868, Sovereigns and Half Sovereigns coined at any authorized Royal Mint in England or Australia, of current weight, may be received in all the Treasuries of British India and its Dependencies in payment of sums due to Government as the equivalent of ten Rupees and four annas, and of five Rupees and two annas, respectively; and whenever available at any Government Treasury, they may be paid at the same rates to any person willing to receive them in payment of claims against the Government. Another Notification, dated 24th November 1869, fixed the following rates of allowance for the wear of gold coin before it ceases to be received in Government Treasuries, *viz.*:—

Allowance for the Wear of Gold Coin.	Grains.
For the Gold Mohur, Sovereign, and 10-Rupee piece	·774
„ Half Sovereign and 5-Rupee piece	·512
„ Double Mohur	1.

STRAITS SETTLEMENTS.

Under Acts VI of 1847 and XVII of 1855, the following copper currency was legalised for the Straits Settlements, which, on 31st March 1867, were transferred to the control of Her Majesty's Colonial Government :—

	Troy Grains.		Troy Grains.	
1 Copper Cent of	144 = $\frac{1}{100}$	part of a Dollar.	Double Pice of 200 = $\frac{1}{50}$	Dollar.
A Half Cent of	72 = $\frac{1}{200}$	„ „	Single Pice of 100 = $\frac{1}{100}$	„
A Quarter Cent of	36 = $\frac{1}{400}$	„ „	Half Pice of 50 = $\frac{1}{200}$	„
			One Pie of 33⅓ = $\frac{1}{400}$	„

SEIGNORAGE.

Gold is coined for individuals at the Mints in British India on payment of a seignorage of one per cent., exclusive of premelting charges.

Silver is coined for individuals at the Mints in British India on payment of a seignorage of two per cent., exclusive of premelting charges.

Silver is coined for Government at a credit to the Mint of one per cent. on the amount coined.

Under Act XIX of 1861, Section IX, Currency Notes payable to bearer in coin, on demand, are issuable in exchange for the amount thereof in standard silver bullion, or in foreign silver coin computed according to such standard, at the rate of Rs. 979 per 1,000 tolas of standard silver fit for coinage.

Account No. 93.

VALUE of GOLD IMPORTED and EXPORTED into and from BRITISH INDIA from and to FOREIGN PORTS, also of the GOLD received into the MINTS, and of the GOLD COINAGE in the MINTS of the three PRESIDENCY TOWNS in each year from 1835-36 to 1871-72.

TABLES SHOWING OUTTURN OF SILVER BULLION OR SPECIE REMITTANCE FROM ENGLAND TO INDIA.

EXPLANATORY REMARKS.

The calculations used in the preparation of this table are as follows :—

A.—To the cost of an ounce troy of standard silver in London 1 per cent. is added for freight and charges for remitting, and to the total cost ¼ per cent. is added as interest for the time taken by a bullion remittance in excess of the time occupied by a remittance by bill. This sum is divided by the Mint outturn of an ounce of fine silver bullion received into the Mint after cutting, as given below, and the quotient, showing the cost of a Government Rupee in India in Pence, is entered in column A. :—

	Rs.
One ounce troy of English standard silver ... ... =	2·6908
Mint duty and melting charge ... ... =	·0564
Net value	2·6344
Mint loss in cutting ... ... =	·0003
Mint net outturn	2·6341

B.—The rates in this column are based on the Mint outturn of an ounce of silver in specie, or bullion of inferior quality, received into the Mint after melting, as given below, the transit charges being 1 per cent. :—

	Rs.
Net value as above	2·6344
Mint loss in melting	·0046
Mint net outturn	2·6298

C.—The rates in this column are based on the transit charges, being 1¼ per cent., *viz.*, freight ½ per cent., insurance ½ per cent., boxes, packing, &c., ⅛ per cent., brokerage ⅛ per cent., interest at ¼ per cent., and on Mint outturn of an ounce of fine silver bullion, *viz.*, Rs. 2·6341.

D.—The rates in this column are based on the transit charges of 1¼ per cent., interest at ¼ per cent., and on Mint outturn of an ounce of silver in specie, or bullion of inferior quality, *viz.*, Rs. 2·6298.

E.—The rates in this column are calculated on the same data as in column A., except that interest is taken at ½ per cent.

F.—The rates in this column are calculated on the same data as in column B., except that interest is taken at ½ per cent.

G.—The rates in this column are calculated on the same data as in column C., except that interest is taken at ½ per cent.

H.—The rates in this column are calculated on the same data as in column D., except that interest is taken at ½ per cent.

DATA FOR CALCULATIONS.

English standard $\frac{222}{240}$th fine silver.

Indian standard $\frac{11}{12}$th ditto.

1 ounce troy = $2\frac{2}{3}$ tolas.

CHARGES IN ENGLAND.

Freight, insurance, boxes, packing, brokerage, &c., 1 to 1¼ per cent.

Interest is calculated at 6 per cent. per annum on the time taken by a bullion remittance in excess of the time occupied by a remittance by bill. This excess is from 15 days to a month, and is equal to ¼ per cent. for 15 days and ½ per cent. for 30 days.

CHARGES IN INDIA.

Mint duty = 1 per cent.

Mint melting charge = 1 per mille.

Loss in cutting in the Mint if fine silver bullion = ⅛ per mille.

Loss in melting in the Mint if silver specie, or bullion of inferior quality = 1·75 per mille.

Account No. 111—*continued.*

Table showing outturn of SILVER BULLION or SPECIE remittance from ENGLAND to INDIA; interest calculated at ¼ per cent. for 15 days.

Cost of an ounce Troy of standard Silver in London in Pence.	COST OF A GOVERNMENT RUPEE IN INDIA IN PENCE. TRANSIT CHARGES AT 1 PER CENT. On Bullion cut.	On Specie melted.	TRANSIT CHARGES AT 1¼ PER CENT. On Bullion cut.	On Specie melted.	Cost of an ounce Troy of standard Silver in London in Pence.	COST OF A GOVERNMENT RUPEE IN INDIA IN PENCE. TRANSIT CHARGES AT 1 PER CENT. On Bullion cut.	On Specie melted.	TRANSIT CHARGES AT 1¼ PER CENT. On Bullion cut.	On Specie melted.

Account No. 112.

REMITTANCE of SPECIE sent to ENGLAND in 1870.

FROM	Mint value of silver sent	Insurance.	Freight.	Packing, &c., charges.	TOTAL.	LESS. 1 per cent. refinage charge on Mint value.	2 per cent. Seignorage on Mint value.	Deficiency recovered in Bombay.	TOTAL.	Total cost less deduction.	Net proceeds in England.	Rate of Exchange		
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	£	£	s.	d.
Calcutta ...	21,22,230	10,558	15,917	1,177	21,49,882	21,499*	42,997*	...	64,496	20,85,386	198,629	0	1	10·86
Bombay ...	40,08,504	21,072	30,000	1,315	40,60,891	...	...	85	85	40,60,806	373,183	0	1	10·05

* These, according to Mr. Bridgnell, the Mint Accountant's opinion, should not be deducted. He says as follows:—

"The Rs. 21,22,230 of bullion were purchased by the Mint at a deduction of 1 per mill for melting (not 1 per cent. for refinage), and of 2 per cent. for seignorage. The deductions were at the time of purchase brought to profit, so that the bullion at the time of remittance stood in the Mint books at standard value, *i. e.*, at par, and it was remitted at this par value, so that there should have been no deduction made from it to ascertain the rate of exchange." See Mr. Bridgnell's pencil note, dated the 15th May 1873.

* Fractions of less value than ⅛ have been omitted.

† From 1858-59 inclusive, the Home Treasury was open at all times for the sale of bills on India, at rates altered from time to time by advertisement, consequent on the mutiny it was necessary to refrain from drawing on India, and the exchange was raised to a prohibitory rate.

Account No. 155.

AMOUNT of BILLS drawn on INDIA by the HOME GOVERNMENT in each month of the Official years from 1862-63 *to February* 1873.

* The exact amount is £3-18-6 99, but for convenience £3-18-7 has been adopted.

† The quotations per tolah of English Gold Bars shewn in the Bombay Exchange Prices-Current from February 1862 to June 1864 are stated to be of 99½ touch. But the touch is not given in the subsequent quotations. They are, however, assumed to be at the same touch (99½).
